

SIPMeT Young Scientist Meeting

MOLECULAR PATHOLOGY: FROM BENCH TO BEDSIDE

December 10th - 11th, 2021
Hotel Domus Pacis, Assisi (PG)

Deadline for abstracts
September 30th, 2021

Dear friends and colleagues,

It is with great pleasure that I introduce the new Young Scientist Meeting live, in Assisi on December 10th and 11th, 2021.

The venue has a double meaning, one scientific and the other spiritual: the scientific meaning is linked to the organization by the friends of Perugia, led by our Vice-President Prof. Luigina Romani, the second is the rebirth in the sense of renaissance of our intellectual and scientific activities live, and given the setting as a seat of fraternal solidarity and peace for all.

Massimiliano M. Corsi Romanelli
SIPMeT President
President of the Congress

Registration is free.

The event is reserved to SIPMeT members.

Covid-19 green card needed.
